KEYSTONE PROMETHEAN PROFESSIONAL DEVELOPMENT MODULES

Foundation Course, 1-Day: Gives an **overview** of fundamentals of Activinspire, organizing and enhancing your flipcharts and using web tools. Maximum 16 participants per instructor.

Foundation Course, 2-Days: Covers in **depth** the fundamentals of Activinspire, organizing and enhancing your Flipcharts and using web tools. Maximum 16 participants per instructor.

Intermediate Course, 1-Day: Covers Activinspire with existing lessons, Power Tools, Tickertape, Camera Tools and more Manipulation of Objects. Maximum of 16 Participants per Instructor.

Practitioners Course, 1-Day: Covers advanced Techniques and classroom integration; question and answer.

Keystone Promethean Support Group: Ongoing professional learning support sessions (normally scheduled immediately after school and conducted on-site or via distance learning technology. Six-1 hour, once a month coaching and support sessions make up this cohort. Minimum enrollment of 4 with a maximum enrollment of 16 participants per facilitator.

Curriculum Developer Course, 2-Days: Advanced two-day course designed to build internal capacity for coaching and support within a school or district. Participants develop the skill sets to become Promethean instructional support coaches. (Topics may include professional development models, formative classroom assessment, lesson plan design, advanced technology integration tools, curriculum design, school collaboration and cross curricular integration).

Using Assessment Tools for Enhancing Daily Instruction and Learning, 1-Day: Covers the use of Promethean active-responders. Learn how to use the software to create, access and record student learning responses in the classroom, how to write powerful questions and interpret the data collected. This course can serve as a great lesson in the use of formative assessments in the classroom.

Using Interactive Technology to Enhance Teaching and Learning, 2-Days: Building on leading instructional research this session defines methods for participants to best utilize interactive whiteboards, learner response systems and the Internet to enhance--not replace--their use of research-based instructional strategies. During this interactive two-day session the instructor will draw upon strong theory, powerful research and demonstrate new learning. Time will be given for practice, reflection and feedback.

Keystone frequently offers workshops for individuals and small groups at the Keystone Learning Center in Lecompton. Check our online registration for dates and details.
